

2007-2008 Pacific Blue Cross Scholarship

Shuo Lu

One Pacific Blue Cross Scholarship in Actuarial Science will be made available in any semester, based on academic merit, to a 3rd or 4th year student with a declared major in Actuarial Science.

Shuo Lu writes:

After two years in Langara College and two years in Simon Fraser University, I have just completed all the credits needed to graduate. Being awarded the Pacific Blue Cross Scholarship is a great achievement for me and am greatly motivated to continue on my path of becoming an actuary. I would like to thank the people at Pacific Blue Cross for their generous support.

I'm so glad that I made the decision of pursuing a career in actuarial science when I first transferred to SFU. I've had a great experience in the past two years. I've been enjoying challenging myself by those tough but interesting ACMA courses and discussing actuarial science problems with my classmates. Although sometimes I felt frustrated, I still strove for best results possible and I successfully maintained a high level GPA.

Now with four SOA exams, I'm seeking a co-op opportunity to put into practice theories I've spent years learning. I know that there is a long way ahead of me before being a qualified actuary and I will be facing a lot of difficulties, but I'm confident that with hard work I will finally reach my goal.
