

2014-2015 Towers Watson Scholarship

This scholarship is awarded annually to a student in an approved Actuarial Science program who has completed ACMA320. It is granted on the basis of academic performance.

Hongshi Li writes:

I was very happy to learn that I was a recipient of the Towers Watson scholarship. I wish to express my thanks to Towers Watson for their generosity. The financial support will go towards my higher education.

I am a fourth year Actuarial Science student who wants to become an actuary in the future. To realize my career goal, I study hard and maintain my CGPA around 4. In addition to my academic achievements, I try to gain various experiences outside of classrooms. I have successfully completed a co-op term last summer, which allowed me to learn how to work in a real firm. And I am currently working as a research assistant at SFU, which is allowing me to improve my research and analyzing skills.

So far, I have completed two SOA exams, P and FM. I am planning to take C in June 2015. I think I have already found the field that I want to devote myself to. I like what actuaries do, and I want to be an actuary.

The Towers Watson scholarship will allow me to concentrate on my education. Their financial generosity brings me one step closer to my goal and inspires me to help others by giving back to the community. I hope one day I will be able to help other students achieve their goals just as they have helped me.
